Water Heater

High Quality Glass Lined Inner Tank

Introducing the new Essco Storage Water Heater range that comes with Glasslined Tank that counter scale, sediment, residue build up on the surface of the water heater tank over time due to the hard water. The Glasslined Tank prevent corrosion when it is in contact with warm water. This increases the longevity of the appliance enhancing your bathing experience.

High Density PUF Insulation

CFC free high density Polyurathane insulation keeps the water hot and prevents heat loss for a long time. It reduces energy consumption and provides high energy efficiency.

Incoloy Heating Element

Incoloy Heating Element offers superior heating performance with resistance to carbonization and oxidation at high temperature. It also resists corrosion against hard water, resulting extended life span of heating element.

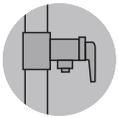

Magnesium Anode Rod

The tank has a magnesium anode rod that is designed to protect the tank from corrosive element. It works as a sacrificial anode, keeps the tank rust proof and ensures a longer life.

BEE Star Rating

BEE rating assures that it's highly energy efficient.

Multi Function Safety Valve

It prevents malfunction during abnormal conditions like high pressure. There are four functions of the safety valve-pressure release, vacuum release, non-return and draining. The MFSV prevents pressure to increase beyond 8 bar.

Rust-free body

Rust-free body prevents rusting and corrosion of water heater from outside.

Power Saver

Less electricity consumption because of high density PUF insulation and glass line coating on inner tank.

High Quality Safety Features

High quality safety features help in avoiding any operational hazard, ensuring more safety.

Quality at the best price
